

C-Energy 2020: How network of Energy NCPs can help you?

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 641003

NCP network

Reliable professionals recognised by EU MS and H2020 AC, as well as the European Commission

A team of experts for the H2020 Energy SC

Providing guidance and support in your own language

How do we help applicants?

- Primary offer: Partner Search, proposal preparation
- we are present in all European countries

e.g. NCPs help you to understand :

- dissemination and communication on projects results for Energy community
 - DiEPP, CEB and SSERR
- FCH contribution to SET-Plan Actions “Energy Efficiency in Buildings”, “Energy Efficiency for Industry” and “Renewable Fuels”

C-ENERGY 2020 Project
C-ENERGY 2020 is a 48 month Coordination and Support Action having three specific objectives:

- ensuring high quality Energy NCP services for Horizon 2020 and related programmes applicants;
- lowering entry barriers for Energy NCPs approaching EU Framework Programmes for R&I for the first time;
- Consolidating the network of Energy NCPs.

The Project, builds up on the experience of the previous C-Energy and C-Energy+ projects, kicked off on the 1st December 2014 in Rome and will be lasting until the 30th November 2018

H2020 Energy
The Energy Societal Challenge in H2020, the EU R&I funding programme 2014-20, is one of the most important in terms of earmarked budget (€ 5.9 bn) over the next 7 years. This reflects the special attention the European Commission attaches to the shift towards an energy secure, competitive, climate resilient and low-carbon economy. This energy transition is underpinned by the EU 2020 and 2030 energy and climate objectives and is part of the longer term EU strategy for the emissions reduction by 2050 (80-95% compared to 1990 levels). The launch of the European Energy Union package in February 2015 confirmed that energy is a top priority for the European Commission that set the ambitious goal for the EU to become 'the world number one in renewable energies'.
